PREFACE

They got better by taking Charabs, and a few of the letters of appreciation enclosed in this book, are given in the hope that you too will make full use of Charabs and gain the new health which they will assuredly give. Charabs have no spectacular drug effect but their persistent removal of all poisons results inevitably in perfect health again.

Day by day—and it is no use denying it—poisons are entering your blood stream from the digestive track. These poisons, unfortunately for you, settle at your weakest spot. Your Rheumatism, Your Kidney Trouble, Your Nerves, or whatever your illness may be, can be directly traced to this steady flow of poisons. NOW—and mark this well, recovery from your illness will be quicker, and much more complete, if these poisons are removed from the blood stream. BUT—and this is most important, if you get rid of the poisons at their SOURCE before they enter the blood, your treatment will be more effective, and your progress even more rapid.

May I urge you to take to heart the testimony of these others who have got well, and persist with your Charabs every day for they will get rid of your poisons and bring you to better health than you have ever had before.

REMEMBER that no medicines—no treatment—no dieting can be effective while the body is full of poisons. Will you therefore take your Charabs every day without fail. In this way you will every day be removing poisons, and with complete certainty be leading to a new and better life.

THEY GOT RELIEF FROM RHEUMATISM with Charabs

— SO CAN YOU —

Bedridden patient makes amazing progress.

Dear Sir,

Bournemouth.

. . . . Please send one bottle of Charabs to above address and another to Mrs. ——. I am pleased to tell you that my wife who has been bedridden and helpless for 18 months, after 6 weeks trial of the Charabs can now raise herself in bed and has succeeded in shuffling across her room pushing a chair in front and with no other support. This seems very wonderful and I am hoping that faster progress will now happen. With many thanks.

Yours faithfully, W.P.K.

**THREE YEARS LATER—Gratitude for wife's recovery
shown in a practical way.**

Dear Sir,

Bournemouth.

Will you please send twelve 6/9 bottles of Charabs, those I received a fortnight ago have all gone. The people who have had them and found benefit are talking and so people come hoping for relief. I advised Mrs. — to try them. Her ankles were about double size —she could scarcely walk, only hobble a little, and was full of pain. In 3 months she could walk well, had lost all her pains and two stone in weight and looked 20 years younger. The improvement was wonderful and so, of course, she sings the praises of Charabs and fresh sales happen.

Yours faithfully, W.P.K.

**Remedy so successful that Clergy and Church workers
supply Parishioners out of Sick and Poor Fund.**

To G. R. Lane, M.A. (Cantab.).

Dear Sir,

. . . . I am now asked by the Clergy and Church workers in the Parish of some 40,000 people, for a supply of your Charabs, for them to supply to the many rheumatic sufferers they come across in their work. They will be paid for out of " The Sick and Poor Fund ". My own work has been private but several of the remedies have been so noticeable that I have been asked to arrange for a supply of Charabs for Parish use. The whole Parish is working class, and housed in new estates of small comfortable modern houses, and all have their allotments and garden.

Yours faithfully, B.S.

They do relieve and that is the difference.

Dear Sir,

Would you please send a 6/9 bottle of Charabs to the above address. Your Charabs have altered my ideas about Rheumatism. They do relieve, and that is the difference. I was regularly rendered useless with Rheumatism in the back and neck muscles, happily it has all gone since taking Charabs.

Dear Sir,

Ely.

Please send me 3 large bottles of Charabs. I have been suffering for over a year with pain in the shoulders due to fibrositis pressing on a nerve. This reluctantly responded to treatment (massage, etc.), but after taking Charabs, the pain left me and so far has not returned. . . .

Indigestion relieved after 40 years of suffering.

G. R. Lane, Esq., M.A. (Cantab.).

Dear Sir,

Southend-on-Sea.

. . . It is difficult for me to express my sense of gratitude for Charabs. For over 40 years I have suffered on and off from Indigestion.

For hours night and day, there has been painful flatulence. Some weeks ago a friend recommended Charabs. Since beginning to take them I have had very little flatulence, and my general health and appetite have greatly improved. I only wish that your remedy had come to my notice long ago.

You are at liberty to make use of this testimonial if you desire. Yours very gratefully, F.C.G.

Skin Eruptions.

Dear Sir,

Nottingham.

. . . I herewith enclose a postal order for 6/9 for a bottle of Charabs which I shall be glad to receive as soon as possible. You will probably be interested to know that your Charabs were recommended to me by my mother in the first place. She has been taking them regularly now for about three years. For several years prior to taking Charabs every Spring and Autumn she used to get skin eruptions, but I am pleased to say she has not had this for the last three years and it does look as though it was caused through some poisons in the system which have been corrected by Charabs. My husband is taking them now for a catarrhal condition in the stomach which causes flatulence, etc., and we are hoping they will effect a remedy in his case. Again thanking you, Yours faithfully, M.H.B.

No Skin Complaint or Breaking Out.

Dear Sir,

About four years ago I had your Charabs recommended to me for Rheumatism. I got a 6/9 bottle and took them regularly for nearly 12 months. I may say that while taking them I never felt better and the Rheumatism greatly improved. But the most remarkable thing was I had suffered from Eczema on one leg for years. When I got the Charabs I said to my family, it will be wonderful if they heal my leg, and they did, and I have had no return of it since.

Yours truly, Mrs. B.G.

It is such a relief for I never knew what it was to be without them. I have advised my mother to take them now ; I am very grateful to my friend who advised me to take them, after I had tried dozens of other different things. I enclose a P.O. Relieved by Charabs.

Dear Mr. Lane,

Christchurch.

. . . I thought you would be interested in the following. It is an extract from a letter written by a relation of mine (Mr. H—), who I think wrote to you at my suggestion. He was suffering very badly from intense Nervous Depression and Indigestion. M—,

Cape Province, SOUTH AFRICA.

" . . . I recall so vividly your coming up to me just before we said good-bye at Guildford, and pressing into my hand that bottle which I now know to be truly remarkable Charabs. At the time, of course, I was completely ignorant of such a specific, and the central thought in my mind was your extraordinary kindness in bothering to persuade me to try something destined to do me such a lot of good.

That is what has happened, and you may be amused to hear that the thing is spreading like a snowball, and that friends of ours here are taking them up. . . ."

Mr. H—. would like you to send him a further large supply to South Africa at once. . . .

Yours faithfully, Miss M.E.T.
